Experience

Responsive Portfolio Website

[Welcome to my portfolio \(omar-abdelraheem.github.io\)](https://omar-abdelraheem.github.io)

- Designed and developed a fully responsive personal portfolio showcasing my skills and projects.
- Utilized HTML5, CSS3, and Sass for efficient styling and maintainability.
- Implemented JavaScript for interactive elements and enhancing user experience.
- Optimized website performance for various screen sizes and devices.

Unique Care Website

- Built a web application for a physical therapist using a tech stack comprising HTML, CSS, JavaScript, and PHP.
- Implemented a responsive design to ensure optimal viewing across various devices.
- Developed a custom contact form with email integration, allowing users to easily get in touch.

Quiz App

- Developed a dynamic quiz application using HTML, CSS, and JavaScript.
- Implemented features such as question generation, answer evaluation, and score tracking.
- Designed an intuitive user interface to enhance user experience.

Agency Landing Page Template

Developed a responsive agency landing page template using HTML and CSS, emphasizing clean design and user-centric layout.
